

VEGAPULSE69 QTY:3 pcs

Radar sensor for continuous level measurement of bulk solids

Measuring unit for lengths :Metre/Millimetre

Scope A : Europe

Approval X : for Ex-free area

Version C :Metal jacketed lens antenna with rinsing

: air connection

Material : PEEK

Process fitting SD : Swivelling holder with flange 4" 150lb

Material : 316/316L

Seal A : FKM (SHS FPM 70C3 GLT) and PEEK

Process temperature : -40...+130°C

Electronics H : Two wire 4 ... 20 mA/HART

Supplementary electronics X : without

Optional overvoltage : without

protection :

Housing A : Aluminium single chamber

Protection : IP66/IP68 (0.2bar)

Cable entry M :M20x1.5

Connection : Cable gland PA black (ø5-9mm), standard

Display X : without

adjustment module PLICSCOM

Additional equipment X : without

Certificates X : No

Max. measuring range : 120 m

Min. process pressure in bar : -1

Max. process pressure in bar : 3

[Order Code : PS69.AXCSDAHXAMXXX
